

D. Banfield Esq.
Chairman, Little Marlow Parish Council
Community Office
The Pavilion
Church Road
Little Marlow
Buckinghamshire SL7 3RS

June 19th 2010

Dear Mr Banfield,

THAMES WATER LITTLE MARLOW SEWAGE TREATMENT WORKS

I am writing to request that this letter and enclosures be printed in full in the next issue of the Little Marlow Parish Council magazine for 2010.

I would record that I have been Chairman of the Little Marlow Sewage Treatment Liaison Committee since July 2005 and would like to take this opportunity of thanking my Committee for their hard work and perseverance in this matter.

I am pleased to enclose copies of two letters dated 2nd November 2009 and 8th June 2010 addressed to me by Bob Collington, Director of Operations Management for Thames Water.

The foregoing letters constitute an undertaking, with details of the work schedule, to complete the construction of a new odour control plant at Little Marlow Sewage Treatment Works.

I do consider that a milestone, and indeed a breakthrough, has been achieved here, which is in the very best interests of local residents.

Yours sincerely

David Watson
Buckinghamshire County Councillor
and Chairman LMSTW Liaison Committee
